Outlook for Q1 2025

Management expects continued momentum in Q1 2025, with revenue guidance of \$130–135 million. Key growth drivers include the expansion of our Solar Panel series into the European market, new EV charging partnerships with three major automakers, and the anticipated impact of federal clean energy tax credits. Capital expenditures are projected at \$22–25 million, primarily for manufacturing capacity expansion at our Arizona facility.
